JASMINE SINGH

LinkedIn: www.linkedin.com/in/jasminesingh07 **Email:** jasmine7new@gmail.com
Github: https://github.com/JasmineSingh-07 **Mobile:** +91 9667490776

SKILLS

Languages: C++, Python, C, JavaScript, Java
Frontend/Backend: HTML, CSS, Bootstrap, Tailwind CSS, Next.js, TypeScript, Node.js, Express.js, React.js, REST APIs, Socket.io, JWT Authentication
Databases / DBMS: MongoDB, PostgreSQL, Database Management System (DBMS)
Core CS Fundamentals: Data Structures & Algorithms(DSA), Database Management System (DBMS), Operating Systems (OS), Computer Networks (CN), Object-Oriented Programming (OOPs)
Soft Skills: Problem-Solving, Curious, Adaptability, Leadership
Tools: Postman, Git/GitHub

PROJECTS

Real Estate Recommendation Portal | *React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT* Jun 2026 – Jul 2026

- Developed a full-stack real estate platform with JWT-based authentication, property search, filtering, pagination, wishlist management, and user profiles using the MERN stack.
- Applied Data Structures & Algorithms to implement a weighted recommendation engine ranking properties based on budget, location, amenities, property type, and BHK, generating the Top 5 matches with percentage scores.
- Built an admin dashboard for property and user management with CRUD operations, analytics, and most-viewed property statistics, backed by MongoDB and Mongoose, applying Database Management System principles for schema design.

Jeecom IT Sales & Services Platform | *HTML, CSS, JavaScript, Node.js, Express.js, MongoDB* Mar 2026 – Apr 2026

- Developed a full-stack IT products and services platform with product browsing, search, cart, checkout, order tracking, and service-request features.
- Implemented REST APIs, MongoDB database integration, JWT authentication, and admin dashboard for managing products, orders, inventory, and service requests.

AI Product Review Analyzer | *Python, Flask, BERT, Hugging Face Transformers, Groq, NLP, PyTorch* Apr 2026 – May 2026

- Built a Flask-based NLP application using multilingual BERT to classify customer reviews by sentiment and predict 1–5 star ratings with confidence scoring.
- Engineered a hybrid NLP pipeline combining BERT with Groq Llama 3.1 for low-confidence sentiment cases, alongside RAKE-based keyword extraction and LLM-powered product-aspect sentiment analysis.
- Integrated automatic multilingual translation and AI-generated business insights, enabling extraction of product issues, key features, and actionable recommendations from customer feedback.

TRAINING

AI-Driven MERN Stack Bootcamp: Full Stack Development with DevOps & Real-World Projects Jun 2026 – Jul 2026

- MERN Stack: Built full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Full-Stack Development: Developed responsive UIs, REST APIs, authentication, and database integrations.
- DevOps: Practiced Git/GitHub, deployment, and development workflows for production-ready applications.

ACHIEVEMENTS

- Finalist, Dev Storm Hackathon – Advanced to the final round of the Dev Storm hackathon by developing and presenting a competitive technical solution.
- 150+ LeetCode Problems Solved — across core DSA, including arrays, strings, trees, graphs, DP.

CERTIFICATES | CERTIFICATIONS

AI-Driven MERN Stack Bootcamp Jul 2026
Infosys Certification | DBMS Jul 2026
Infosys Certification | C++ Language Aug 2025
MOOC on React.js | Tech Veda Mar 2025
Course on C | CSE Pathshala Jan 2025

EDUCATION

Lovely Professional University, Phagwara, Punjab Aug 2024 – Present
Bachelor of Technology, Computer Science and Engineering; CGPA: 9.01

Colonel's Central Academy, Gurugram, Haryana Apr 2021 – Mar 2024
Intermediate: 94.6% (2024) | Matriculation: 94.8% (2022)
